

## **Environmental Policy Statement**

The company acknowledges its responsibilities in protecting and preserving natural resources and other environmental assets. The company aims to conduct all its affairs in accordance with the dictates of sound environmental protection practices, including pollution prevention wherever reasonably possible. The Company shall also avoid, minimise and appropriately mitigate adverse environmental impacts. These undertakings extend to the construction, maintenance and operation of its systems and facilities. Legal obligations in these matters are established by applicable laws and regulations; this Policy Statement is not intended to create further or additional legally-enforceable requirements.

To support the performance of the Company's responsibilities and undertakings, the company is committed to:

- Implement and maintain an environmental management system that embraces all the companies functions;
- Establish, maintain and make available to the public appropriate performance indicators of the companies exercise of its environmental stewardship and to consistently review these indicators as a basis to improve the companies performance;
- Comply with all environmental laws and regulations applicable to our business and activities;
- Assure that employees of the company receive training appropriate to their functions concerning the company's environmental responsibilities;
- To communicate to contractors, designers, consultants and other participants in the Company's work the management practices and compliance requirements established to further the aims of this Policy Statement;
- To encourage employees and all other citizens to communicate with the Company about ways to increase the effectiveness of Companies practices supporting its mission of environmental stewardship;

Each employee of the Company is charged to exercise his or her responsibility on behalf of the Company to assure that the intentions of the Policy Statement are diligently carried out.
